

What we do

Basic Rights Qld Inc's committed team provide free advice, support and legal services in matters relating to social security, disability discrimination and women's employment issues.

Our free services are tailored to the person and provided by phone, mail and in person. We provide advice, referrals, casework and representation if needed.

Our resources are limited so casework and representation are prioritised for the most vulnerable people.

Where an issue has an impact on the broader community we may also:

- Develop and conduct community education activities; and/or
- Participate in law reform projects where we advocate on behalf of the community.
